

Please reject NAB Petition 04-160. I CHOOSE to subscribe to Satellite Radio because I am sick & tired of the "Big Business" of broadcast radio where programming choices take a definite backseat to dollars spent by sponsors and filling the airwaves with 75% ads vs 25% music lacking in quality at that! This appears to be yet another attempt by "big brother" to monitor & control MY choices and MY FREEDOM to choose. Democracy as we've know it, is rapidly becoming obsolete. Somebody please have the guts to step forward and LISTEN to the people for a change.
